Thirty-five percent of sewer laterals are repaired and/or lined. Next week, laterals work will continue on King Street between Fulton & Clifford Streets and in the blocks from Horlbeck Alley to Broad Street. Because of this work, the *Charleston Library Society Lot* will be closed all week and the *Tellis Pharmacy Lot* will be closed on Tuesday, November 4<sup>th</sup>. The *Berlin's Lot* will remain open, but there will be only one entrance/exit for vehicles.

It is anticipated that curb installation will be completed this week in the block between Market Street to Golden & Associates and A'Riga IV. Next week water meters will be swapped out. Bret will notify merchants when the brief water interruptions occur. Grading for the sub-base is planned.

Demo of the curbs/sidewalks between Fulton Lane and Clifford Street is completed. Infrastructure agenda items for this block include finishing the sewer laterals work, electric pole removal (Kids on King, 195 ½ King), installing a new gas line, setting new water main laterals and meters, placing electrical conduit, preparing and pouring sub-base for the sidewalk and installing the bluestone. Please be advised that when SCE&G Gas arrives for the installation, their vehicles must be used adjacent to the work zone.

Another unmarked gas line was cut this week in front of Il Cortile Del Re. Although SCE&G responded immediately to make the repair, we apologize for the unpleasant circumstances brought about by the break.

Water main and electrical conduit installations have advanced to Billy Reid's at 150 King Street and will continue working through the Queen Street intersection next week.

In the 2-way block of Queen Street between Meeting and King Streets, traffic police assistance will continue next week from 7a.m. to 7 p.m. Monday through Friday. The prime contractor will check this area on the weekends. A sign stating “all businesses are open” has been placed at Meeting Street for the Queen Street businesses.

Please direct **any** type of concern to City staff, the construction liaison or supervisor, not construction crew members.

Streetscape staff will assist South of the Market with parking logistics for a shipment next week.
